- 2 Understanding Google's Local Search Rankings
- 4 Google My Business Listing Checklist
- 5 Google My Business Category List

Introduction

Google My Business (GMB) is a **powerful tool** that can make or break your business's **visibility online**. If your business isn't properly **listed on Google**, you're missing out on potential customers searching for services like yours.

This eBook will guide you through the key aspects of optimizing your GMB listing, ensuring that your business ranks higher in local searches and attracts more customers.

Understanding Google's Local Search Rankings

In this section

- 1 How Does Google Determine Local Search Rankings?

01

How Does Google Determine Local Search Rankings?

Google's local search algorithm is designed to connect searchers with the most relevant and reliable results. Here are the three primary factors that Google considers:

1 Relevance

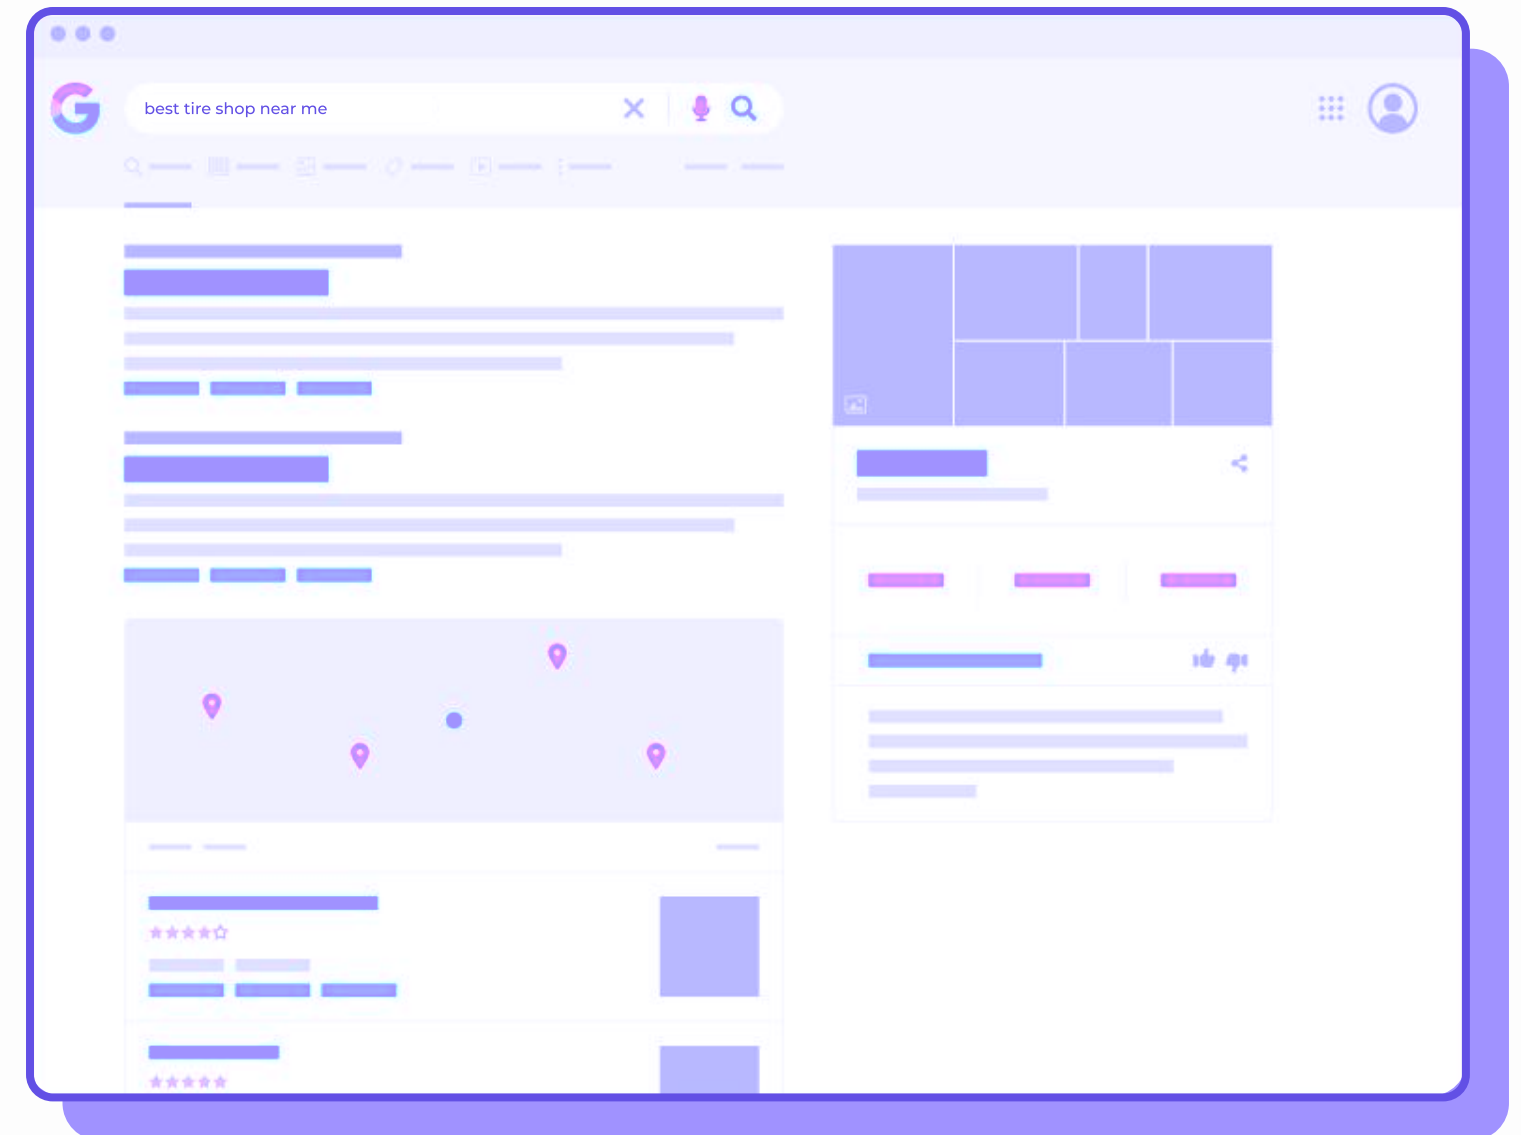

Google's goal is to provide users with the best possible results for their searches. For example, if someone is searching for the "best tire shop near me," Google will show results that are most relevant to the query. To ensure your business appears in relevant searches, make sure your GMB listing is accurate and up-to-date. This helps you stand out against less qualified competitors.

2 Distance

Proximity plays a crucial role in local search rankings. Google considers how close a searcher is to your business when determining which listings to show. Therefore, having a precise address in your GMB listing can greatly improve your chances of appearing in nearby searches.

3 Prominence

Prominence refers to how well-known and reputable your business is. Google considers various factors such as directory listings, online reviews, and overall star ratings. The more prominent your business appears online, the higher it will rank in local search results. This makes it essential to manage your online presence and encourage satisfied customers to leave positive reviews.

- 7 Have You Uploaded High-Quality Photos?
- 8 Implement Schema Markup (Local Business)
- 9 Link Social Profiles

2024

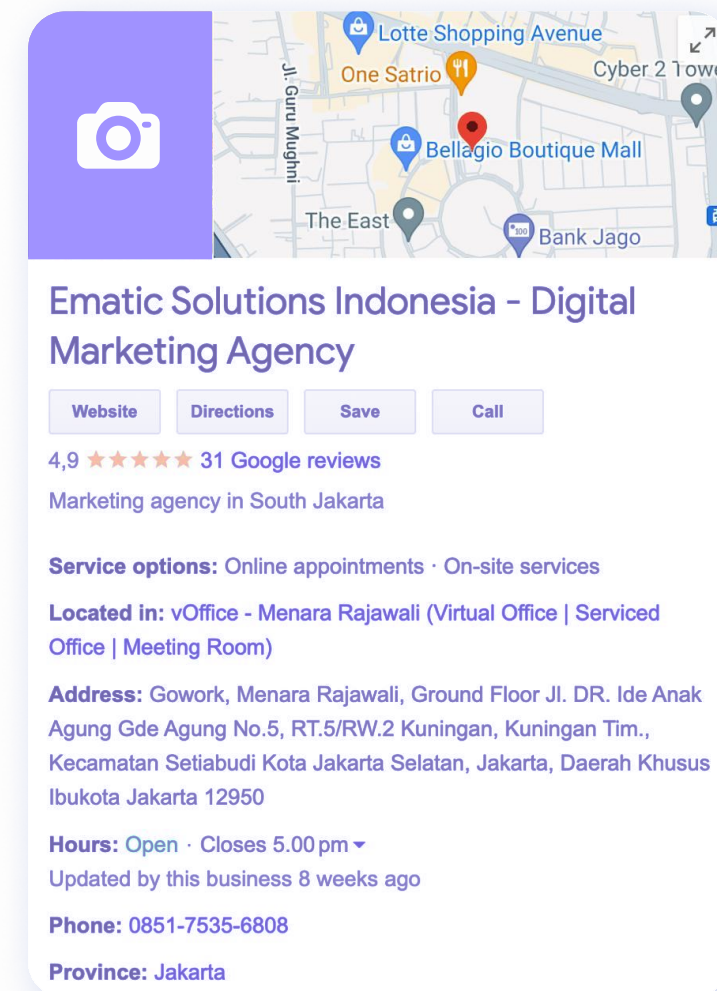

Create or Claim your GMB

To list your business on Google My Business (GMB), first search Google to check if your business already has a listing.

If it does and it's unclaimed, you can claim it. If not, create a new listing by signing into Google My Business. To claim an existing listing, sign in, locate your business, and click "Own this business?" to begin the claim process.

If you need to request ownership of a claimed listing, submit a request through the GMB interface and wait for the current owner's response. If your request is denied or unresponsive, contact Google My Business support or try claiming the listing again.

Is Your GMB Listing Complete?

A complete and detailed GMB listing is crucial for local SEO. Here's a checklist to ensure your listing is thorough:

1 Who You Are

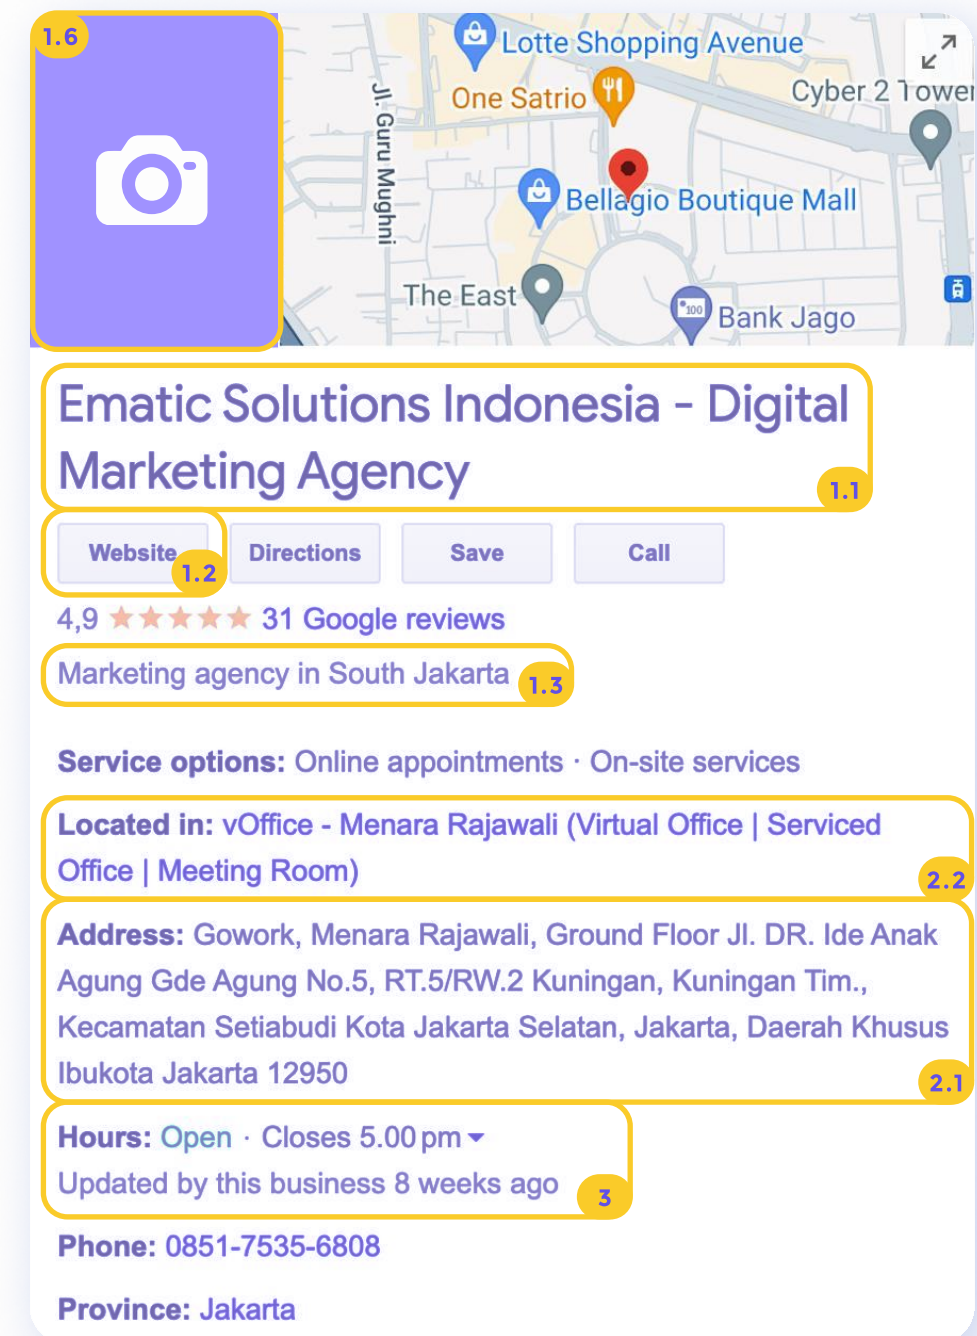

- 1.1 Name** Ensure your business name is consistent across all platforms.
- 1.2 Website** Link to your official website.
- 1.3 Business Category** Select the most relevant category for your business.
- 1.4 Attributes** Highlight key attributes (e.g., "Free Wi-Fi").
- 1.5 Opening Date** Add the date your business was established.
- 1.6 Photos** Include high-quality images representing your business.

2 Where You Are

- 2.1 Address** Provide an accurate and complete address.
- 2.2 Service Area** Specify the areas you serve, especially if you offer services beyond your primary location.

3 When Customers Can Visit

- 3.1 Hours of Operation** Keep your hours updated.
- 3.2 Holiday Hours** Adjust your hours during holidays to avoid customer frustration.

Consistency on NAP (Name, Address, Phone)

Consistency across your Name, Address, and Phone number (NAP) is critical. Ensure that these details are the same across your GMB listing and all other directories on the internet. Inconsistencies can confuse Google and potential customers, leading to lower rankings.

Are Your Locations Verified?

Verification is key to gaining control of your GMB listing. Check whether your business is verified by visiting Google My Business and following the required steps. Verification not only boosts your credibility but also allows you to manage your listing more effectively.

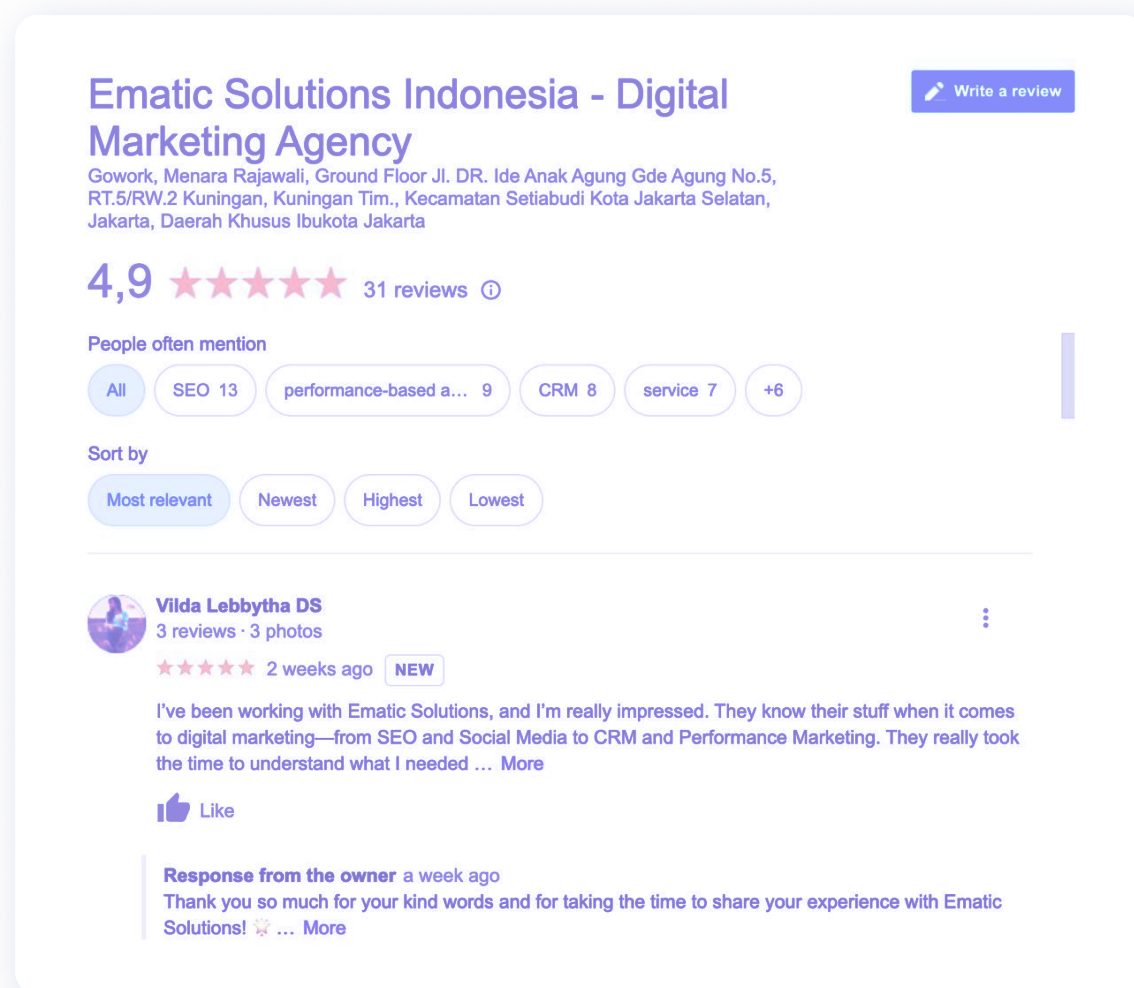

Are Your Hours Accurate & Up-to-Date?

Customers rely on the hours listed in your GMB profile. Make sure your hours of operation are accurate and up-to-date. Including special holiday hours can prevent frustration for customers who visit your business only to find it closed.

Are You Collecting & Responding to Reviews?

Online reviews significantly impact local SEO. Moz estimates that GMB listings and Google Reviews account for 40% of local pack ranking factors. Encourage satisfied customers to leave reviews and make sure to respond to them, both positive and negative. This not only boosts your SEO but also builds trust with potential customers.

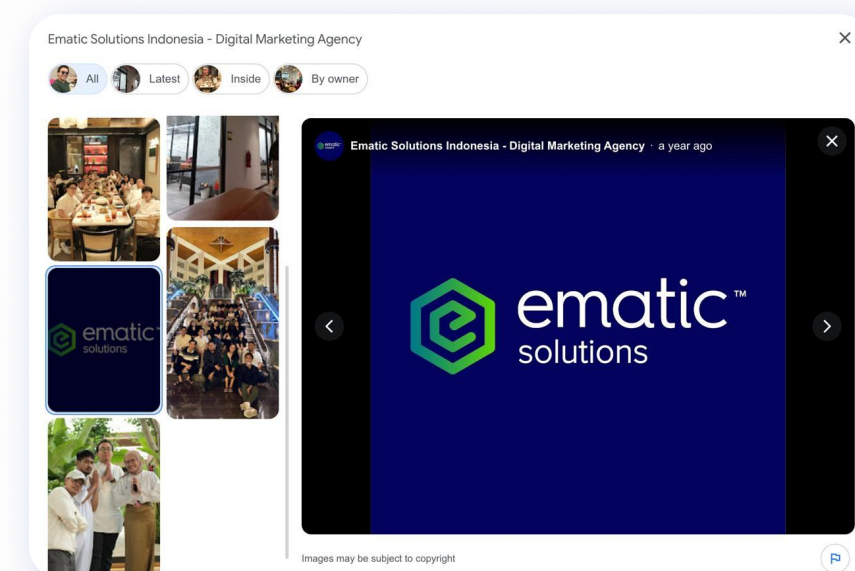

Have You Uploaded High-Quality Photos?

High-quality photos can make a huge difference in attracting customers. According to Google, listings with photos receive 42% more requests for driving directions and 35% more clicks to their website. Make sure to:

- Profile Photo** Choose an image that best represents your business.
- Logo** Use your brand logo to increase recognition.
- Cover Photo** Select a cover photo that visually represents your business.

Before uploading, ensure your images meet Google’s recommended dimensions and resolution. Regularly update your photos to keep your listing fresh and engaging.

Implement Schema Markup (Local Business)

Schema markup helps search engines understand the context of your business information. Implement Local Business schema markup on your website to enhance how your business is represented in search results and to improve local SEO. This can include details such as business hours, address, and reviews.

Link Social Profiles

Link your social media profiles to your GMB listing. This not only provides additional ways for potential customers to connect with your business but also helps enhance your online presence and credibility.

1 Choose The Right Business Category

A	B	C	D	E	F	G
H	I	J	K	L	M	N
O	P	Q	R	S	T	U
V	W	X	Y	Z		

2 How to Choose Best Fit Category for Your Business

3 Conclusion

03

Choose The Right Business Category

Categories act as labels that help Google understand the nature of your business. They are essential for accurate categorization and display of your business in relevant search results. They connect you to customers who search for your products or services.

Google frequently updates its category list. Periodically review your categories to ensure they remain accurate and relevant. Here's the most updated list of categories you can use to describe your business:

#

3D printing service

A

Aadhaar center

Abarth dealer

Abbey

Aboriginal and Torres Strait Islander organisation

Aboriginal art gallery

Abortion clinic

Abrasives supplier

How to Choose Best Fit Category for Your Business

Categories play a crucial role in describing your business and connecting you with potential customers searching for your offerings. Your primary category influences your local search ranking on Google and may determine your business's place label.

When choosing a category:

- 📍 Pick a primary category that accurately represents your entire business.
- 📍 Be as specific as possible within the available options.
- 📍 Use the dropdown menu that appears as you type to select a category.
- 📍 If your ideal category isn't listed, opt for a broader but still accurate alternative.
- 📍 Remember that you can't create custom categories.

For instance, "Nail salon" is preferable to the more general "Salon" if it better describes your business. Your chosen category affects how your business appears in various related searches, such as "Restaurants" or "Pizza" for a "Pizza restaurant" category.

Conclusion

Optimizing your Google My Business listing is essential for standing out in local search results. By following the checklist provided in this eBook, you'll enhance your visibility, attract more customers, and ultimately grow your business. Remember, consistency, accuracy, and engagement are key to maintaining a strong online presence.
